How can you close a ticket that the matter of the introduction of this ticket is not resolved.

In the last update I said to check out the materials and leave this ticket open for 30 days.

How can you immediately click close. And by the way, the language here applies.

Professional Video --- What is a peace agent --- the methods --- and what it is to expose those who are not acting in ways that are peaceful has been generated by a 1st connection on this site.

I cannot see how you can be so blind to your directions to not answer my questions directly.

I cannot see how you can follow your upper management dos and donts when in this support

ticket is found that what needs to occur is a #DoSomething action which I know what those actions begin with to #StopMassShooting:

targeting individuals [TIs] by Gang Stalking. I am not the first member to bring this topic to this network. When again I say it as proud and as loud as I must say it strong,

WHEN WILL YOU ALL GET YOUR HEAD OUT OF YOUR ASS ---- AND SEE THE TRUTH BEFORE YOU --- YOUR HEAD IS IN A LOCATION THAT IS NOT GIVEN NATURAL SUNLIGHT. YOU ARE INCAPABLE OF SEEING THE TRUTH UNTIL YOU TAKE YOUR HEAD OUT OF YOUR ASS AND WAKE UP TO REALITY!

I will be having my mother Veronica Ann Driskill contacting you as my agent to facilitate why you insist to not revealing these facts ---- WE CANNOT JUST THROW NEW IDEAS AND MESSAGING AT THESE PROBLEMS. THESE PROBLEMS THAT ARE GENERATING A GREAT DISTURBANCE IN THE SOCIAL FABRIC OF SOCIETY GENERATING THE EPIDEMIC OF MASS SHOOTINGS.

ON MARCH 31ST [Just The Other Day], I already attached you a screen snapshot of this image from it's source, there was another day that hit 7 incidents per day of mass gun shootings. The causality rates are not 30 50 etc, but they are going to hit 8 incidents per day, 9 incidents per day, 10 incidents per day, and 11 incidents over a period of time here --- - there is no solution here without honesty.

The solution is to deconstruct the building on a foundation of a house of cards.

The house has not toppled over yet I do not know when that tipping point is, but it is predictable without deconstructing these several problems that are driving the erosion of trust into the gutter ---in this country - that the world is following and mirroring. It is in our culture first and we must [not an option] take collective responsibility for the outcomes of the loss of life and the carnage that is happening.

I have the technology tools open to use in the raw state, if only the model to which it is information theory formed was not being under attack by deceptive haters.

For the purpose of this hate ---- is to collapse the entire nation to dust.

Those who do not intervene in this --- when the truth impacts them into reality, are TREASONOUS if they do not act.

Since I was a former Notary Public, at the time of my commission, I was able to conduct Oaths. I have the balls and guts to proceed and process these words morally responsible.

This includes the Oath that installs the service of the Office of the President of the United States of America. If you were to recognize the professional's history of this member, and that society duty of a notary public does not terminate at the expiration time of notary public commission term, I do carry forward both my role and then my ability under that role to apply to any and every single one person and interpersonal relationships. Even if that interpersonal interface is a LinkedIn Customer Service Support Ticket as a whole, or individually referenced by this case number specific. Case# 190831-000028.

Now that there is some actual content taken out of can responses. Is this going to continue? [That is a question].

In the support ticket that came from my account being placed on restriction, it took me three separate escalading emphasis that I desired to know the exact content that was the offending marker over a line. Once, ignored. Twice, ignored. It took the 3rd attempt to repeat my request 3 separate times in the same response submission. Really, that is an insult that what you have just revealed holding a professional tone gets the reward.

So far, the squeaky wheel has gotten the oil.

That is the problem here as well.

Please acknowledge this truth.

TRUTH meaning that you agree or disagree or have no opinion which is what position I predict is your safer option instead of acting forward, matters stall and the support ticket closes prematurely without getting to the actual focus of what must be intercoursed.

That is the word.

About Standards... Does LinkedIn hold standards or do they take an approach of we know

Search LinkedIn Help

The content remains a victim of hostile people playing GOD RULES when they are not engaged into the conversation --- word to word or letter to letter. The agenda is to hop to the most shortest ever terms of comprehension and no understanding is reached. GOD RULES means, understanding is only one direction. We understand you but you don't or are not incentivized to understand us. That is not very supportive.

Again we are on the topic of Standards: Here on LinkedIn there are present actual in operation company names that contain the word "Fuck" in them. Do you agree? [That is a question deserves a direct reply]

Next, taking that there are actually several examples that I keep quoting over and over because as LinkedIn has not established this Standard is agreed, actually a tweet disagreed [your last official position made on this matter, or you have no opinion. There can be no such thing as a no-opinion. That means you are ignoring the issue.

I site 4 different company name provies as an example but are not limited to these 4. "Fuck Cancer" with a web presence domain of "FuckCancer.Org", a 501(c) non-profit actual in operation named ID.

So, is that a standard that passes?

Yes: No: Maybe we pick and choose: or: we can't determine.

We can determine because we are not smart enough? Right.

"Fuck Yeah Astrophysics," a proscience site that is a .com non-profit venture.

They have the web domain presence of "http://fuckyeahastrophysics.com" ---- We now have two examples were the rules that we think should be applied can't.

Why is this word the deal breaker that causes everyone who is holding spineless overruling policy by bullying can't comment and hold a conversation? [This is a question]

The next company is "Fuck Rasism" a non-english spelling of the word Racism. This is a foreign English Language adaptation of what I hold is the truth of how fuck is actually the best choice possible here. It is used, the same exact word, across more spoken voice languages than any possible edicate allowable language for peace. Fuck is crude? Fuck is vulgar? So fucking what?

Search LinkedIn Help

Then we come to the 4th example, and this is where you all are caught with your eyes shut and your hands over your eyes, ears stuffed with anything you can find to block the sound of honesty and sanity.

The actual company on LinkedIn is named "Fucked Up Design" --- would you order from them?

Of course you might question it --- and maybe taking the stand --- gutsy -- you would.

The name of itself does not note the quality of the product line all by itself.

The meaning of the word fuck can be of the reaction high mark astonishing.

Because some don't want to utter such a word out of their public statements, they know they use it just the same as all of us privately --- so why cant we get over ourselves and accept this standard? [Once again this is a question].

Does it take that I must --- by defining a business model of revenue based motives and incentives to attract investors in a peace culture model of information theory? I actually charter the business entity of FuckedUpHuman.net ---- what does that server?

Why does it have to take standing that I must place a commercial or non-profit registration to the presence of <http://fuckeduphuman.net> ? [Again this is a question that must be truly internalized to your answer].

Freedom of speech demands that you release the notion that the use of the content linked or the links by themselves at my internet domains are unprofessional in any matter whatsoever.

Does LinkedIn share this standard or do they have a logicis problem accepting rational text here and actually empower the understandings here as being a "supportive approach" to a paying member of your service? [again a question]

Without these questions answered --- a standard that allow silence to be the norm, that silence kills ---

"The Truth Hurts, But Silence Kills" - Mark Twain.

Search LinkedIn Help

rational to say that such an active digital object technology presence would be desired to hold long term.

Stop the hate that is brought into my view of life that no will address, not even law enforcement.

That misapplying the understanding of Standards, that you all in the social media gods enable and condone hate being allowed to win by not having or taking a position on this matter just by silence. And if you were to take a position, at least such a position was taken.

By acting like it does not have any altered presences on our informational society is just dim witted to be kind.

So when then it comes to the documentation truth record of the actual valid url ----

<http://linkedin.fuckeduphuman.net>:

How does LinkedIn think this is just scattered bits of static or does LinkedIn hold a position that they might think it could have a negative impact on public relations when persons stumble upon it's name ID ACTIVE WEB PRESENCE and nothing is done but to continue to kick the can down the road like it does not matter or that such a state of digital objects is insignificant onto our full noosphere.

[Do you need a meaning definition of noosphere or are you with me so far?]

That it does and can only have that emotional binding reactive presence because of it's vulgar flare to have an impact on persons that stumble upon such a naming presence and question, WHAT?

They would have to question why any one, any thing, any organization, any rational mind would allow themselves to be held into this light if what is said and why it is being said was not true.

Immediately, a content removal request would be the most prudent responsible action to clear the matter.

That is the Standard that must be logically concluded here.

Search LinkedIn Help

the dates are saying, what --- the position of this author and the network must be justified and right.

Do you agree? [again another question that deserves to have an answer].

So, if LinkedIn would participate on the model of truism that is intelligent placed before an user of information consumption in such regard and desires that such statements be corrected and reconciled, the others who actually have a might higher offense posture conclusion of this network would use your example of Standard ---- actual stop ignoring me and actually take the action to contact me !!

This then have a real honest discussion --- which has been my goal all of this time for these many years.

To make it a win win solution.

That is the heart of the matter in this discussion points before you this first days of September in 2019. My birthday was September 1st and I am now 54. Something wrong has been established in these regards for almost over 15 years.

That is the discussion before you!!!!

Would you want me to be successful or do you actually hold your desire I go away and the haters are allowed to continue their aggression against me? [again, this is a question here].

That the others see no one is holding rational standards on it to engage this network and that everyone out here in wrongdoing lands of unbalanced wisdom wise business interpersonal relations wish hard for my demise!

This is simple stupidity that this country allows the haters to win ---

EVERY FUCKING SINGLE TIME!

Please, Pretty Please, Pretty Please With Sugar On Top,

Provide me evidence that this statement I just made is untrue.

I am not a criminal enterprise even though it is apparent that such activities are happening here on LinkedIn.

Can I please have your full name, even if it is not your standards of practices. That way, if we are separated from this support ticket..... and in the future, I can request that you handle each new ticket need as it might seem fit --- this to build upon the new understandings --- and that we BUILD not DESTROY TRUST in this community. Thank you.

Canned message --- you have no intention to coming back here to save face with me.

I already know. I created additional cases BECAUSE YOU REMOVED THE CASE OFF THE OPEN CASE TICKET QUEUE ---- IF YOU DO THAT CENSORSHIP OPPRESSIVE ACTION AGAIN, THIS WILL RESULT IN THE SUPPORT TICKET BEING SPOKEN VOICE TEXT NARRATIVE TRANSCRIPTED INTO A SCREEN CAPTURE VIDEO RECORDING OF THESE MISSING TICKETS AND BEING POSTED TO YOUTUBE. THIS TIME, I WILL NOT BE SO KIND AND REMOVE THEM ONCE THE BLOCK OF COMMUNICATIONS ARE REMOVED.

DO YOU HEAR ME?
