***** IF THE FAX IN SAN BENARDINO OFFICE WAS NOT NUMBER BLOCKED -- THEN I WOULD NOT REQUEST THAT YOU BE AN ALTERNATIVE.... NOTE THAT THESE ARE FORWARD CYCLED INTO EACH OTHER..... RELEASE THE BLOCK FOR THE SAN BERNARDINO OFFICE PLEASE.**

IF THIS FAILS, THEN I WILL USE THE FAX TO ANOTHER OFFICE --YOU CAN NOT RESTRICT PATIENT COMMUNICATION NEEDS!

This Comment BOX is not designed to be used to place these kind of objects. The formatting here is to show you --- that you must access the files by going online.

I know what is going on.

IF AND/OR WHEN YOU DECIDE WHAT YOU ARE GOING TO DO -- YOU CAN NOT BLOCK THE NEED TO UNDERSTAND ME -- THAT I KNOW WHAT IS GOING ON! YOU CAN NOT CLAIM THAT I HAVE NOT INFORMED YOU AS WELL -- AND THEREFORE YOU CAN NOT CLAIM YOU ARE INNOCENT OF YOUR KNOWING -- YOU CAN NOT CLAIM

CULPABLE DENIABILITY!

YOU ARE ALLOWING THE HATE MENTALITY TO GUIDE AND OVERRUN YOUR ALLEGIANCE TO OUR AMERICAN FLAG AND COUNTRY -- WHY DO YOU STAND THERE IN THAT DAMN UGLY WAY?

WAKE UP -- WHEN AND/OR IF THE COUNTRY IS TURNED OUT UPSIDE-DOWN -- THERE IS NOT GOING TO BE A TROPHY REWARD FOR YOU -- YOU WILL BE IN LINE SACRIFICED -- JUST THE SAME!

IT IS TIME FOR MORALS TO COME BACK INTO THE SCREEN -- AND STOP BEING HATE SYMPATHIZING FUCKED UP HUMAN BEINGS!

Bas Pades Communicatg Your Science

This article details some key strategies you can use to de-jargon and clarify your content so scientists and non-scientists alike can get excited about your news.

By C&EN Media Group

Reading Time: 5 minutes

The Pacific island nation of Papua New Guinea has less than 10 million inhabitants and more than 850 known languages. In many ways, it's a real-world example of what takes place in the deep labs of science: Outsiders or non-scientists certainly don't speak or understand the languages and even within the field, scientists can struggle to communicate between themselves. When you're working at the level of [recombinant mimetics](#) or the skin microbiome of a deep sea fish, it's hard to find common ground. But it's oh-so important.

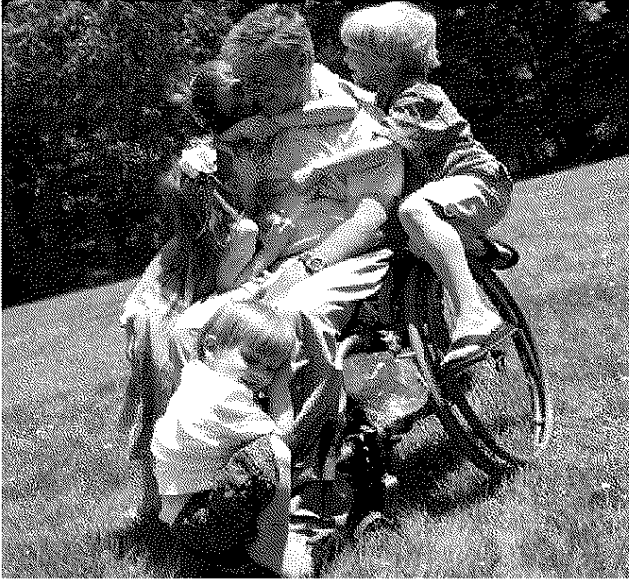

In this article, we share tips for communicating science to non-scientists – and scientists alike. It's about translating and de-jargoning the language, so the key concepts and findings can rise to the top.

Mastering these skills is invaluable for everything from **science marketing**, to presenting at conferences, to explaining – once and for all – what exactly you do at your next family Christmas. Get ready to learn, Uncle Steve...

Disability Inclusion

Spanish

Disability Inclusion: Making sure everybody has the same opportunities to participate in every aspect of life to the best of their abilities and desires.

What is Disability Inclusion?

Including people with disabilities in everyday activities and encouraging them to have roles similar to their peers who do not have a disability is *disability inclusion*. This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities —such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

Disability Inclusion and the Health of People with Disabilities

Disability inclusion allows for people with disabilities to take advantage of the benefits of the same health promotion and prevention activities experienced by people who do not have a disability. Examples of these activities include:

- Education and counselling programs that promote physical activity, improve nutrition or reduce the use of tobacco, alcohol or drugs; and
- Blood pressure and cholesterol assessment during annual health exams, and screening for illnesses such as cancer, diabetes, and heart disease.

Including people with disabilities in these activities begins with identifying and eliminating

including people with disabilities in these activities begins with identifying and eliminating barriers to their participation. <<<<-----
